

Date: 20th November 2021

To whom it may concern,

This letter aims to confirm details about the PROCaRe study (Patient Reported Outcomes following Cancer of the Rectum) - NCT04936581. This is a collaborative study led by the University Hospital 'Gregorio Marañón', Madrid, Spain. Coordination outside Spain is welcomed and will be responsibility of the local committee in that country.

We are delighted to welcome Dr. Francesco Pata and Dr. Gianluca Pellino as national representatives and coordinators of this study in Italy.

Sincerely,

Patricia Tejedor, M.D., Ph.D.
Consultant Colorectal Surgeon
PI of the PROCaRe study
